Resolution, Sutter Basin Causeway.

Supervisor Leinberger moved the adoption of the following resolution.

WHEREAS, A bill introduced by Assemblyman Fred B. Moyes, of this Assembly District, seeks an appropriation of \$400,000.00 for the purpose of constructing a causeway across the Sutter By-pass at a point that would bring direct connection between the County Seat of Sutter County and the County Seat of Yolo County, and

WHEREAS, Because of Constitutional restrictions regarding the bonding of counties beyond a certain limit for highway construction, or other purposes, it is known that it would be impossible for Sutter County to construct this causeway, although it has practically extended paved roads to either side of the by-pass, therefore be it

Resolved, That the Board of Supervisors of Yolo County, at their meeting held this 29th. day of January, 1923, hereby endorse Assembly Bill No. 16, as above designated

and urge its enactment as a matter of justice to Sutter County, where reclamation and drainage has divided the County in two parts and made it necessary for citizens of either division to make long distance trips either to the North or South in order to reach the one division or the other, and be it further

RESOLVED, That the Clerk of this Board be directed to mail certified copies of this resolution to Assemblyman Fred B. Noyes and Senator W.F. Gates.

Adopted Unanimously.

Resolution, Bridge
at Antioch.

Supervisor Leinberger moved the adoption of the following resolution.

WHEREAS, the highways of the State of California have proved an invaluable aid in the development of this State's agricultural areas by providing avenues and minimizing the difficulties of communication between various rural communities, as well as assisting in bringing the productive areas of our State closer to consuming and shipping points, and

WHEREAS, that section lying to the south of Sacramento, known as the Sacramento-San Joaquin River Delta, is isolated and deprived of easy means of egress and ingress because of the natural barrier provided by the combined waters of the Sacramento and San Joaquin Rivers, and

WHEREAS, for the normal rapid development of the interior of Northern California, as well as that particular section known as the Sacramento-San Joaquin River Delta, it is necessary that easier avenues of land travel and communication with the Bay Cities be provided by the construction of a bridge across the present barrier of water dividing the already completed State Highways leading from the Bay Cities on the West and from Sacramento and Stockton on the east to Antioch, Contra Costa County, therefore,

BE IT RESOLVED, that the Board of Supervisors and County of Yolo goes on record as favoring and strongly recommending the construction of a bridge in the vicinity of Antioch, Contra Costa County, at a place to be determined by State Highway Commission Engineers and that this constructive piece of work be included in that named Commission's 1928 building program.
